What Some of Our Customers Think of Our Plants

Gibbsland, La. March 26, 1926

THE JEFFERSON FARMS
Albany, Georgia.

I want 30,000 sweet potato slips. I want them here by the 20, of April or sooner. I have prices from several, but I prefer yours if we can get together I have used your plants a long time and know them to be allright. The Cabbage plants that I got from you are just fine and really the best in Bienville Parish

I hope to hear from you at once.

O. W. GRAY, Local Agent.

Wintrop, Iowa, March 2.

THE JEFFERSON FARMS
Albany, Georgia.

Received a letter from you a short time ago and was glad to again get your address which I mislaid.

Ordered tomato and cabbage plants from you about three years ago and they were the finest I have ever grown. They grew very rapidly in this northern climate and produced wonderfully.

So I am again enclosing you an order. Please ship so the plants will reach me by parcel post the first week in April.

(Signed) Mrs. Thos. Farrell.

Calico Rock, Arkansas, March 4, 1926.

Dear Sirs:

Received the plants ordered from you, and they were in fine sbape, the onion plants were better than any I have seen shipped in here this year.

Tbanking you for your promptness in sbipping the same, I am.

Very Respectfully
Margaret C. Willard.

California, Ohio, May 14,

Received tomato plants and want to say they were in a splendid condition.

Thanking you for your service rendered and the quality of goods you have sent me.

I will recommend you to any one I may have the chance.

(Signed) JOE KOEHLER, Jr.

WE COULD GIVE HUNDREDS OF OTHERS

Double
the
Profits
of Your
Entire
Crop

You can produce a uniform field of cabbage like these by using our field grown cabbage plants.

Field
Grown
Frost
Proof
Cabbage
Plants

YOU CAN PRODUCE
A Crop of Cabbage Four Weeks Earlier
THAN YOU ARE NOW!

OUR PLANTS are grown in the open field and hardened through frost and freezing weather, and will mature four weeks earlier than home grown or hot bed plants. After going through this frost and freezing weather they have been known to survive 10 above zero without injury to the plants.

OUR GUARANTEE

All plants are guaranteed to reach you in good condition. Should there be any damaged plants, select the good ones and notify us at once.

Non-warranty:—We send plants that to the best of our belief will give entire satisfaction. The best plants sometimes fail thru improper cultivation or weather conditions, therefore we give no warranty, expressed or implied and will not be responsible in any way for the crop.

TOMATO PLANTS

OPEN FIELD GROWN TOMATO PLANTS

Grown from seed selected for big crops. Open field grown tomato plants are strong and hardy, short jointed, and well rooted. We supply some of the largest canners, and commercial growers of tomatoes in the United States. Plants ready for shipment about April 1st. Book your order in advance if possible. Varieties: Earliana, Greater Baltimore, and Stone. Prices: 100 50c; 500, \$1.50; 1000, \$2.50 Postpaid. By express 1000, \$1.75; 4000, and over \$1.50 per thousand.

CHARLESTON WAKEFIELD

Charleston Wakefield

This cabbage is a Selection from the Early Jersey. It was originated by one of our oldest growers, and is the best all-around cabbage in existence; it is only about ten days later than the Early Jersey, and we

recommend it above all others.

The Early Jersey Wakefield

Many market gardeners consider this the best cabbage in cultivation. Its merits are many, among which are large heads for an early variety, small outside foliage, and uniformity of crop. The heads are medium size, cone shaped, and are white, solid and tender.

Early Jersey Wakefield

LARGE FLAT DUTCH

Early Flat Dutch

This variety needs no recommendation, as it is one of the oldest in cultivation. Exceedingly valuable for its quality, and for its ability to resist heat. Heads very solid, round, flattened on top, tender and fine grained.

Cabbage and Onion plants ready for immediate shipment

TO ALL BUYERS

The writer takes great pleasure in stating that he has known the proprietors of The Jefferson Farms for several years and they are absolutely reliable and trustworthy in every respect. Their business methods are square and honorable and they enjoy the confidence and esteem of the business men of Albany. They enjoy the patronage of a large and satisfied list of customers and I unhesitatingly recommend them to any prospective buyers.

THE ALBANY CHAMBER OF COMMERCE.

Aug. 17, 1915. (Signed) John Mock, Gen. Secretary

HENDERSON SUCCESSION

Succession

The Earliest of the flat head varieties. A sure header, and a very hardy grower, both in cold and hot weather. This variety is grown extensively in the South and gives universal satisfaction. We strongly recommend this variety.

Porto Rico Yam Sweet Potato Plants

This variety is by far the best and most profitable sweet potato grown. A very heavy yielder, requiring less cultivation due to rapid growth and dense foliage which shades the ground. We grow no other variety so you can rest assured that you get a pure strain from our farms.

Orders must be placed far in advance as we only had sufficient seed to insure the number of plants for which we have orders. Shipment after April 1st. Prices: 500 \$1.75, 1,000, \$2.50 Postpaid. By Express or parcel post collect 1,000, \$2.00, 4,000 and over \$1.75 per thousand. Special price on large orders.

5000 and over at per thousand	\$1.00

All plants tied 50 to bundle and shipped in light crates.

TERMS—Cash with order.

White Bermuda Onion Plants

White Bermuda Onions are noted for their earliness, heavy yields and mildness of flavor. We plant our seed in October, and the plants takes on root growth during the winter months, and will grow very fast when put out in the Spring and we strongly recommend them for the more Northern Sections of the South where it gets too cold for this variety to live during the winter. Prices: Same as for cabbage plants.

An Additional Profit of \$150.00 an Acre

An Acre of Cabbage well taken care of in an ordinary season will produce 15,000 heads, or thirty thousand pounds of good, wholesome food for man or beast.

If you can realize the small sum of one cent per head you would realize

\$150.00 an Acre

and at one cent per pound would sell for \$300. At the time this is written cabbage is selling for three and one-half cents per pound here wholesale. Ask your local grocer the market quotations on cabbage. You can follow this same acre of land with cotton, corn or potatoes and make a good crop without additional fertilizer.
